

Women In Technology

Open House

Py-CU, Champaign-Urbana's Python User Group, is hosting its first Women in Technology (WIT) Open House.

This free event is targeted at women in the professional and hobbyist STEM community as well as women who would like to explore this world for the first time in a supportive environment. It will consist of a schedule of mini talks, a panel of representatives from CU tech groups, and small group breakout sessions focused on specific topics.
